

[Sundries & Options]

Cross bracing

Manufactured from pre-galvanised steel to BS2989. For all structures (except Solar range), these are bracketed at each side of the hoop horizontally and vertically with drop bars from the ridge. Ideal for hanging baskets, irrigation or crop support, also useful as structural bracing for structures in high snowfall areas etc.

Knee bracing

For use in conjunction with cross bracing systems on very exposed locations.

Manufactured from pre-galvanised steel to BS2989, attaching cross bracing to loop bars.

[Horticulture Growing Houses]

Overhead Irrigation

Irrigation kits are available for all our polytunnels. They include 32mm spraylines, pin jets at 1.5mm, drain valves, filters, wire support hooks, woodeye screws and strainers, PVC cement, drop chains & clips and quick couplings for easy connection to a hosepipe. Header mains, pumps, tanks or other irrigation requirements are available by quotation.

Ground Cover

100 Micron black cover available in a full range of sizes. Pegs and joining tape are available on request.

Also available

- Replacement polythene covers.
